

AMG 20 Research Assignment

Approach this assignment as if you were actually buying an instrument or amplifier.

You want to compare at least three **similar** instruments or amps in a table format.

For guitars you can compare things like wood, colours, finishes, machine heads, body and head stock shapes, sizes, number of strings, type of strings (nylon vs. steel), models, makes, pick ups, bridges, necks, frets, electronics, switches, chrome or gold hardware, and of course price.

For amplifiers you can compare the power amp sections and pre amp sections (solid state or tube), wattage, ohms output for speakers, combo or head and cabinet, type of wood, grill, colour, covering material, EQ section, , number of speakers, size of speakers, number of channels, for acoustic or electric guitar, special effects like reverb etc., and of course price.

Eg.

Make	Fender Strat	Gibson	Fender Tele
Model #	John Mayer	Nighthawk	Nashville
# of pickups	3	2	2
Type of pick ups	single coils	humbuckers	single coils
Type of controls	1 volume 2 tone	2 volume 2 tone	1 volume 1 tone
Many more comparisons			
Price	2000.00 CAD	1500.00 CAD	2000.00 CAD
